

Premier truck tools and navigation

IntelliRoute® TND™ 710

IntelliRoute® TND™ 510

The best got even better.

Rand McNally continues to innovate and upgrade its line of award-winning devices designed just for trucks. The new IntelliRoute® TND™ 510 has a sleeker design and a brighter screen to enhance in-cab use. The new IntelliRoute® TND™ 710 features a host of upgrades including a traffic predictor to enhance routing.

With both the 5" and 7" units, drivers can find destinations by latitude and longitude; view current location by mile marker; and find more truck services – like truck washes and truck repair shops. And with the new Virtual Dashboard, drivers can see key data at-a-glance.

Premier truck tools and navigation

intelliroute® TND™
Trucker tested. Trucker approved.
